

⚠ Important Health Warning About Playing Video Games**Photosensitive Seizures**

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

HEALTH ISSUES

Use this software in a well-lit room, staying a good distance away from the monitor or TV screen to not overtax your eyes. Take breaks of 10 to 20 minutes every hour, and do not play when you are tired or short on sleep. Prolonged use or playing too close to the monitor or television screen may cause a decline in visual acuity.

In rare instances, stimulation from strong light or flashing when staring at a monitor or television screen can cause temporary muscular convulsions or loss of consciousness for some people. If you experience any of these symptoms, consult a doctor before playing this game. If you experience any dizziness, nausea, or motion-sickness while playing this game, stop the game immediately. Consult a doctor when any discomfort continues.

PRODUCT CARE

Handle the game discs with care to prevent scratches or dirt on either side of the discs. Do not bend the discs or enlarge their centre holes.

Clean the discs with a soft cloth, such as a lens cleaning cloth. Wipe lightly, moving in a radial pattern outward from the centre hole towards the edge. Never clean the discs with paint thinner, benzene, or other harsh chemicals.

Do not write or attach labels to either side of the discs.

Store the discs in their original case after playing. Do not store the discs in a hot or humid location.

SEGA Rally Revolver™ game discs contain software for use on a personal computer. Please do not play the discs on an ordinary CD player, as this may damage the headphones or speakers.

* Also read the manual of your personal computer.

* The game discs may not be used for rental business.

* Unauthorized copying of this manual is prohibited.

* Unauthorized copying and reverse engineering of this software is prohibited.

Thank you for purchasing SEGA Rally Revolver™. Please note that this software is designed for use with PC system. Be sure to read this software manual thoroughly before you start playing.

Saving and Loading

SEGA Rally Rev0™ features a fully automatic load and save system. The first time you play the game, you will be prompted with a screen informing you that a game save has been created. After this point, the game will automatically save and load for you.

Playing SEGA Rally Rev0™

Heads-Up Display

While racing, the Heads-Up Display (HUD) will keep you updated with important information about the race. The HUD remains the same no matter which car you are in, but it will change depending on what game mode you are playing.

Total Time - Displays your total time for the current race

Lap Time - Displays your current lap time

Best Lap Time - Displays your best lap of current race

Pacernote - An explanation of what you're approaching (corner, jump, bridge, water splash)

Stage Map - A map of the circuit with all car positions displayed. You are displayed as "P"

Current Position - Your current position in the race

Current Lap - The lap you are currently on

Revs - Current engine speed

Current Gear - Displays the current gear

Speed - Shows you the speed at which you are driving

Main Menu

Quick Race

Simply choose a stage and a car to get into instant action.

Championship

Race against other rally competitors in an attempt to win three separate rally Championships. Start in the Premier Championship with a small selection of cars, and attempt to accumulate enough points by winning races to open up the next Championship.

Time Attack

The player races against a clock as the only car on the circuit. The aim is to finish the three laps in the quickest possible time.

Multiplayer

Race friends in a split-screen battle, or head online to race players from around the world.

Garage

View previously saved replay and game status.

Options

Change game options and controller configurations.

Garage

Go here to check you progress throughout the game

Quick Race

On entering "Quick Race", choose an environment and a single track. Then, pick which class, car and preferred setup and begin the race.

Championship

Selecting an Event

When entering this mode, only the Premier Championship will be available. When you achieve certain criteria, you will unlock Modified and Masters modes. Each Championship has three difficulty leagues, only the first one is available at the start. Professional is unlocked by completing Amateur, though Expert is unlocked by completing Professional.

You do not need to complete and win every event to unlock further Classes and Championships, you only need to acquire enough points to progress. You will unlock more bonuses and secrets if you complete every event of each Championship.

Choosing a Car

After selecting which rally you would like to enter, it is time to select your car. Different cars appear in different Championships and each car has alternative setups to choose from.

Results Screen

At the end of each race you will be presented with a results screen informing you of how many points you have just earned in the race, along with your overall points.

Time Attack

Within Time Attack you can set a time locally to compete against friends on your PC, but if you are connected to the Internet, you will be able to compare your times with others from around the world. You can also download a ghost from the top times on any stage in the game, and race against it to see if you can beat it. If you manage to get a best time, your ghost will automatically be uploaded to the leaderboards for other players to download.

Selecting an Environment

Toggle through and select a track to race on.

Choosing a Car

After you have selected your desired track, choose a car class and select a car with your preferred setup, then begin Time Attack.

Multiplayer

Within Multiplayer mode you are able to play the game in Online and local Head-to-Head split-screen play.

Choosing a Game Mode

Online - Compete with players from around the world in races. You can create a session of your own, or join one already in progress.

Head-to-Head - Play a local game against friends using a split-screen setup.

Online

When entering Online mode, you are presented with four options; Quick Match, Custom Match, Create Match, and Ranking Leaderboard.

Quick Match - Choose this option and you will be taken to a list of available games that are currently in session.

Custom Match - Here the game will still look for online games available, but you can change various search options such as car class, and the amount of players in the match. It will only bring up games that match your search criteria.

Create Match - This is where you go if you want to set up a game yourself. You can specify the car class, maximum number of players, number of laps, catch up and if you want AI turned on.

Once you have selected Create Match, you will be prompted to create a Championship of tracks to race online. If you would rather choose tracks as you go along, simply select 'No', and you will be taken to the lobby screen where you can add tracks after each race.

The Online Lobby

When entering the lobby as the host, you will be presented with the following options. Note: if you enter a previously created lobby as a client, 'Track Select' will not be available, and 'Start Game' will be replaced with 'Ready'.

Chat - Here you can chat to other players in the room using the keyboard

Car Select - Choose your car

Track Select (Host only) - Choose a single or group of tracks to play

Track List (Client only) - View the list of tracks chosen by the host

Settings (Host only) - Adjust game settings

Start Game (Host only) - Start the online game when all the Clients have selected Ready

Ready (Client only) - Select this to signify to the host and other players that you are ready to race

Leave Game - Select this to leave the online game session

When hosting an online match, you are able to remove, or permanently ban a player from your session. As the host, you have two options:

Kick

If you select this option, the player you have selected will be removed from the current session. However, at any time they will be able to return to your hosted session. Highlight and select the player in the lobby, then choose Kick.

Kick and Ban

If you wish to permanently remove the player from your session, select Kick and Ban. This will remove them from the game session immediately, and add them to your Banned User List. This means they will not be able to join any of your games during the current online session. The next time you play the game after it has been turned off, the Banned User List is cleared so any previously banned players will be able to join your games again. Highlight and select the player in the lobby, then choose Kick and Ban.

Options

Change game options such as audio, autosave and controller configuration.

Audio

You are able to adjust the volume of the sound effects, music, and co-driver pacenotes separately.

Controller

Select between using a Keyboard, USB game controller or a supported steering wheel. Here you can also change the controller configuration.

Display

You are able to choose between Mph and Km/h for the speed, whether you want the HUD (Heads-Up Display) and Rear-view Mirror turned on or off and adjust the game's Gamma settings.

Notes

LIMITED WARRANTY:

SEGA of America, Inc. warrants to the original consumer purchaser that the game disc or cartridge shall be free from defects in material and workmanship for a period of 90-days from the original date of purchase. If a defect covered by this limited warranty occurs during this 90-day warranty period, the defective game disc or cartridge will be replaced free of charge. This limited warranty does not apply if the defects have been caused by negligence, accident, unreasonable use, modification, tampering, or any other causes not related to defective materials or manufacturing workmanship. This limited warranty does not apply to used software or to software acquired through private transactions between individuals or purchased from online auction sites. Please retain the original, or a photocopy, of your dated sales receipt to establish the date of purchase for in-warranty replacement. For replacement, return the product, with its original packaging and receipt, to the retailer from which the software was originally purchased. In the event that you cannot obtain a replacement from the retailer, please contact Sega to obtain support.

Obtaining technical support/service

To receive additional support, including troubleshooting assistance, please contact Sega at:

- E-mail: support@sega.com
- Telephone: 1-800-USA-SEGA

LIMITATIONS ON WARRANTY

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO 90 DAYS FROM THE DATE OF PURCHASE AND ARE SUBJECT TO THE CONDITIONS SET FORTH HEREIN. IN NO EVENT SHALL SEGA OF AMERICA, INC., BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES. THE PROVISIONS OF THIS LIMITED WARRANTY ARE VALID IN THE UNITED STATES AND CANADA ONLY. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. THIS WARRANTY PROVIDES YOU WITH SPECIFIC LEGAL RIGHTS. YOU MAY HAVE OTHER RIGHTS THAT VARY FROM STATE TO STATE.
